

## Village Hall is extended

HOLMESFIELD Parish Council is delighted with the brand new extension to the Village Hall.

Bringing with it more space and event options, the development offers a new small hall and storage space for tables and chairs, which have had to be stored round the walls of the main hall or on the stage in the past.

The new hall is halfway in size between the main hall and the committee room and has its own independent underfloor heating system and unisex toilet.

The new hall can be hired by smaller groups or together with the main hall for anyone wanting to arrange a larger function.
